

Wilson Focus School Enrichment – Session #3

January 20, 2026, through March 5, 2026

No Enrichment the Week of March 9.

Class	Class Description
African Culture Connection	Come dance, drum, and learn with us! In this fun class, you will explore African music, art, stories, and traditions. You will try new dance moves, create colorful art, and listen to exciting stories from Africa.
Competitive Robotics (Gr. 4-6) <i>Prerequisite: Intro. to Robotics</i>	Students build and program radio-controlled robots and use them to compete in area competitions. <i>**Parent(s)/guardian(s) need to provide transportation to competitions.</i>
Disney Musical: Finding Nemo	Come dive under the sea with Nemo, Dory, and Marlin! In this fun session, you will learn sing, act out scenes from <i>Finding Nemo</i> , build sets, and so much more. You will learn how to move like ocean animals and use your voice to bring characters to life. Don't worry if you've never been on stage—just keep swimming and have fun!
Disney Musical: Finding Nemo, Set Design & Costumes	Do you like to build, paint, and create? Help design sets and make costumes for shows! You will use your imagination to make cool backgrounds and fun outfits. Work as a team and bring stories to life with your art!
Intro. to Robotics (Gr. 3-6)	Get ready to explore the world of robots! You will learn how to build and program robots using fun tools and simple coding. You'll work with your classmates to solve problems and complete cool challenges.
Lego Design	Students will use LEGO® bricks to design and build creative structures and challenges. Through hands-on building, they will strengthen problem-solving, engineering, and critical-thinking skills. Collaboration and perseverance will be emphasized as students plan, test, and improve their designs.
Logic Puzzles	Students will engage in a variety of logic puzzles that challenge them to think critically and reason strategically. Through individual and collaborative problem-solving, they will practice perseverance and flexible thinking. These activities will strengthen analytical skills while making learning fun and engaging.
Needlepoint	You will learn how to sew colorful designs with thread and fabric. You will make pretty pictures and patterns while practicing your patience and focus. You will be guided step-by-step, and soon you'll be able to create your own special art.
No More Empty Pots	Imagine planting seeds, making tasty healthy snacks, and helping the Earth all at the same time! You will learn how to grow food, take care of plants, and find out why composting is good for nature. Together, we will explore ways to keep our neighborhoods healthy and strong.
Omaha Henry Doorly Zoo	Zoo staff will bring cool science experiments, art projects, and real zoo items to help you learn about animal types, habitats, and how everything in nature is connected. You'll even get to meet live animals like insects, spiders, reptiles, amphibians, and more!

Snapology	You'll build robots, try coding, and solve design challenges using LEGO® bricks, K'Nex, and other fun tools. While you play and explore, you will cool activities with science, technology, engineering, art, and math.
Soccer (Gr. 3-4) & (Gr. 5-6) <i>*Two enrichment sessions</i>	You will learn how to play soccer from skilled coaches who know a lot about the game. They will teach you how to kick, pass, and work with your team. The coaches will help you practice and get better while having fun. They make sure everyone feels included and learns something new.
Spanish Club	You will learn how to speak Spanish in a fun way. You will practice new words and talk with friends in a fun way to help you remember. It's a great way to learn a new language and have fun after school!
SPARK Positivity	At SPARK, you will learn how to understand and manage your feelings, set and reach positive goals, care about others, build strong friendships, and make good choices. You will learn about important traits like Empowerment, Honesty, Generosity, Teamwork, Joy, and Self-Care in a fun and positive way!
Sports Spectacular	You will learn new sports and get better at the ones you already know. You'll learn the rules, practice skills, and be a good sport. Each week will be a little different, and you'll get to try things like basketball, badminton, dodgeball, and more.
Student Council (Gr. 3-6)	<i>This enrichment is only available for the two Student Council Representatives that were selected from each class.</i>
Taekwondo	Get ready for a fun and exciting way to learn taekwondo! You will practice cool kicks, punches, and moves that help you get strong and fast. You will also learn the important discipline of martial arts while discovering how to protect yourself!
Ukelele (Gr. 4-6)	Come and learn to play the ukulele! You will discover how to strum strings, play cool songs, and make beautiful sounds. It's a fun way to enjoy music and show your creativity.
Why Arts	Get ready to become an awesome artist! You will learn cool skills like drawing, painting, and making sculptures. You'll try fun materials and colors to make your own amazing art. You'll also discover stories about famous artists and why art is important.
Yearbook (Grade 6 Only)	Help create the school yearbook—the memories that will last forever! You will learn how to take photos, write about school events, and design pages. With some of your peers, you will make a yearbook full of fun and special moments from the year.
