Data Source: Principal reporting of data.

Parent-Teacher Conference Attendance has been collected by the Research Division in the spring. Beginning with the 2021-22 school year, the Research Division collected both fall and spring parent-teacher conference data which includes in person and virtual attendance. This information can be used as one measurement of family engagement.

Attend: The number of students who had at least one or more parent/guardian attend PTC in person or by phone/virtually.

% Attend: Fall percentage is determined using Official Fall Membership. Spring percentage is determined using monthly membership from the month the conference occurred.

Student Mobility

Data Source: NDE NEP website. Nebraska Student and Staff Record System

Any child who enters or leaves school between the last Friday in September and the last day of school is counted in the mobility rate. An individual child is counted only once. The percentage is calculated using the number of students in grades K-12 who are mobile divided by the number of students in grades K-12 as reported in the October or Fall membership. The October or Fall membership includes students enrolled on the last Friday in September.

In cases where no data is available, school level statistics do not appear.

Percent Absent by Grade: Enrolled 40 or More Days

Data Source: Student Information System (Infinite Campus)

Includes students enrolled at the school for 40 or more days in the school year. The data represented may be different from the attendance dashboard because it was compiled at the end of each school year and is not subject to change. Absences used in these calculations are an accumulation of all out of school absent time and do not include activity, office, Student Success Center absences, technology, senior release, or bus related absences. All other excused and unexcused absences are included in attendance calculations.

Percent Absent: The percent absent charts display the number and percentage of students who fall into each absence rate category. The district goal is for every student to be absent for 5% or less of their school year. An absence rate of 10% or more is considered chronically absent. Only students enrolled for 40 or more days are included in this calculation.

Data Source: NDE ADVISER Student Attendance Summary

This chart displays the approximate count of chronically absent students based on AQuESTT business rules and NDE data. Includes all students enrolled at the school for 10 or more days and students enrolled in a program setting who are assigned to the school for state reporting. Students of all enrollment percentages are included.

Unique Student Incidents by School Year

of Students with Out-of-School Suspensions by School Year

of Students with In-School Suspensions by School Year

of Students with Expulsions by School Year

Data Source: Student Information System (Infinite Campus)

Student demographics are based on Official Fall Membership enrollments and all discipline rates by group or school are calculated by dividing the number of students disciplined throughout the school year by the number of students enrolled at official membership.

Unique Student Incidents by School Year reflects the total number of distinct students involved in distinct incidents in that school year. A student involved in multiple unique incidents counts multiple times.

Student Climate Survey

Staff Climate Survey

Parent Voice - Climate Section

Data Sources and Notes:

This summary page presents favorability scores for the identified domain areas based on the annual climate survey results of students and staff. Student responses are collected from grades 5-12. These domain scores are calculated by aggregating individual item responses, showing the percentage of responses that were negative (1 or 2), positive (4 or 5), or neutral (3).

Parents have the opportunity to provide feedback throughout the year via the Parent Voice Survey, which allows them to choose from multiple categories to respond to. Parent response counts are often lower, especially in the climate/culture section, as many opt not to participate. Consequently, if there are 10 or fewer responses, the data is not displayed due to the results not being able to be generalized to a larger population.

Graduation Reports Overview

Graduation/Dropout Summary

The Graduation/Dropout Summary shows the graduation rates of cohorts of students over the last five years. A graduation cohort is defined as a group of students who started ninth grade together and are expected to graduate in four years. Students who enter high school in tenth, eleventh, or twelfth grade are similarly entered into a graduation cohort that would have been four school years from their ninth-grade year. Cohort length is the number of years it takes a student to graduate from the start of becoming a first time ninth grader. The standard time to graduate is four years. This report also reflects the percentage of students who graduated, are still enrolled, or have dropped out during the reported school year.

Graduation Follow-Up Summary

The Graduate Follow-Up Summary displays the results of the survey conducted with graduate students from the Omaha Public Schools. The survey is conducted approximately six months after graduation and includes questions regarding graduates' long-term goals, transition into the workforce, enrollment in post-secondary education, and factors influencing these decisions. The Graduate Follow-Up Summary focuses on graduates' post-secondary enrollment status, in/out of state attendance, types of post-secondary institutions attended, employment status, and career goals of the graduates.

A graduation cohort is a group of students that enter 9th grade at the same time with the expectation of graduating in four years. Students that enter high school in 10th through 12th grade are similarly entered into a graduation cohort that would have been four school years from their 9th grade year. To see more information on the methodology/calculation of cohort, graduation, and dropout rates, please see the district graduation and dropout report.

The 4-Year cohort **Graduate** category includes students who obtained a regular diploma in four or fewer years. The **Still Enrolled** category includes students who were still enrolled at a school or program at the end of the school year. The **Dropout** category includes students who dropped out, aged out, or who were not enrolled at the end of the school year.
