

## Voluntary Device Protection Program 2025-2026

### Student Information

Student Last Name:
Student First Name:
Grade / Student ID Number:

#### Parent/Guardian Responsibility for Device Protection

The Parent/Guardian is solely responsible for any loss, theft, or damage to the Device provided by the District. To offer an added layer of protection, the District has established a Voluntary Device Protection Program for the current academic year. Participation in this program is entirely optional. To enroll in the Voluntary Device Protection Program, the Parent/Guardian is required to make a one-time, annual payment of \$20 per Device.

By opting into the Voluntary Device Protection Program, the Parent/Guardian will receive coverage for the Device against damages. The District will handle repairs or replacements at no additional cost, except in cases where the damage or loss falls under specific conditions listed below:

1. Unexplained Loss or Mysterious Disappearance: The Program will not cover losses if the Device cannot be located, unless compelling evidence suggests it was stolen.
2. Failure to Notify Police If Device is Stolen: In the event of theft, it is essential for the Parent/Guardian to promptly report the incident to the police. Failure to do so will result in the Program not providing coverage.
3. Intentional Acts: The Program will not cover losses caused by intentional damage or destruction of the Device.
4. Dishonest Acts: Any loss resulting from dishonesty or illegal acts will not be covered by the Program.
5. Theft from an Unattended Vehicle: The Program will not cover losses or damages arising from Devices left unattended in vehicles, except when the vehicle is securely locked, windows fully closed, and there is clear evidence of forced entry.
6. Unauthorized Repairs: Damages resulting from unauthorized repair attempts or work carried out by non-District technicians will not be covered.
7. Non-Timely Reporting: The Program may not cover damage or loss if not reported within 3 days.
8. No Coverage for Accessories: The Program will not cover the cost of accessories such as charging cables, device cases, adapters, or any other additional items provided.

The District will assess whether a damaged Device should be repaired or replaced. The final decision on whether the circumstances of the damage or loss are covered by the Program will be made by the District Workers' Compensation & Insurance Management department.

## Parent/Guardian Voluntary Device Protection Election

☐

Yes, I elect to enroll my student in the District voluntary device protection. I have included a payment of \$20.
